ORGANIZED CRAFTER

single pedestal desk, base cabinet and add-on cabinet have been designed to provide consumers with an economical choice for their craft, hobby and scrapbooking organization and storage needs. The desk and cabinets are modular so storage can be expanded as space requirements increase.

ORGANIZED CRAFTER has been developed at a price point targeted for big box retail stores, shopping channels and infomercial sales. The product was successfully introduced to the consumer market through The Shopping Channel in Canada in April, 2008.
